假期生活营
Holiday Camp

Introduction

Learning Objectives :

- Inspiring children to establish harmonious relationship with the nature by cultivating their gratitude toward nature.
- Creating awareness among the children about the environmental protection is an individual and personal responsibility to all human beings since we are all part of the biosphere
- Instilling the importance of establishing sustainable coexistence of mankind and nature.

Activities Highlights :

- Equipping children with the value of lives through care about oneself, others, and the nature.
- Developing preparedness, living and survival skills in children.

Introduction :

The world is a learning to the with their only when and respect to

children's classroom. "Experience it" is the most children, by letting them see through their eyes, heart. Children will be able to foster love they contacted with the nature the living things.

rewarding yet important way of touch with their hands and feel towards nature in the early age, They will also develop child's care
